

## Rabbit anti-Human CCNE1 Polyclonal Antibody | anti-CCNE1 antibody

CCNE1 Antibody

| CATALOG # | HOST   | REACTIVITY | APPLICATIONS                                                  |
|-----------|--------|------------|---------------------------------------------------------------|
| AAA236062 | Rabbit | Human      | ELISA, Immunofluorescence, Immunohistochemistry, Western Blot |

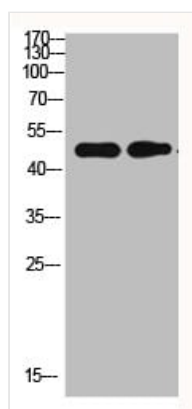

### PRODUCT SYNONYMS

CCNE1; Polyclonal Antibody; CCNE1 Antibody; CCNE; G1/S-specific cyclin-E1; anti-CCNE1 antibody

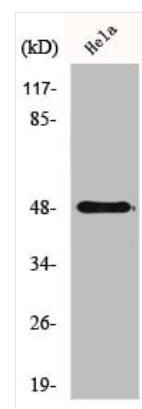

### PRODUCT SPECIFICATIONS

|                                                 |                                                                                                      |
|-------------------------------------------------|------------------------------------------------------------------------------------------------------|
| Host                                            | Rabbit                                                                                               |
| Reactivity                                      | Human                                                                                                |
| Clonality                                       | Polyclonal                                                                                           |
| Isotype                                         | IgG                                                                                                  |
| Purity/Purification                             | Affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| Form/Format                                     | Liquid; In Phosphate Buffered Saline, 50% Glycerol, 0.5% BSA and 0.02% Sodium Azide.                 |
| Applicable Applications for anti-CCNE1 antibody | ELISA, IF (Immunofluorescence), IHC (Immunohistochemistry), WB (Western Blot)                        |
| Immunogen                                       | Synthesized peptide derived from human Cyclin E1 around the non-phosphorylation site of T395.        |
| Immunogen Species                               | Human                                                                                                |
| Conjugate                                       | Non-conjugated                                                                                       |
| Preparation and Storage                         | Upon receipt, store at -20 degree C or -80 degree C. Avoid repeated freeze.                          |
