

## Rabbit FSHR Polyclonal Antibody | anti-FSHR antibody

FSHR Antibody

| CATALOG # | HOST   | REACTIVITY        | APPLICATIONS                            |
|-----------|--------|-------------------|-----------------------------------------|
| AAA236160 | Rabbit | Human, Mouse, Rat | ELISA, Immunofluorescence, Western Blot |

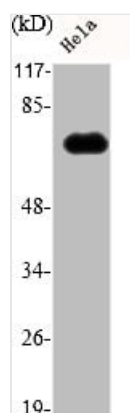

### PRODUCT SYNONYMS

FSHR; Polyclonal Antibody; FSHR Antibody; LGR1; Follicle-stimulating hormone receptor; FSH-R; Folitropin receptor; anti-FSHR antibody

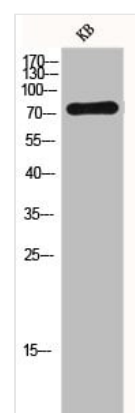

### PRODUCT SPECIFICATIONS

|                                                |                                                                                                      |
|------------------------------------------------|------------------------------------------------------------------------------------------------------|
| Host                                           | Rabbit                                                                                               |
| Reactivity                                     | Human, Mouse, Rat                                                                                    |
| Clonality                                      | Polyclonal                                                                                           |
| Isotype                                        | IgG                                                                                                  |
| Purity/Purification                            | Affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| Form/Format                                    | Liquid; In Phosphate Buffered Saline, 50% Glycerol, 0.5% BSA and 0.02% Sodium Azide.                 |
| Applicable Applications for anti-FSHR antibody | ELISA, IF (Immunofluorescence), WB (Western Blot)                                                    |
| Immunogen                                      | Synthesized peptide derived from the Internal region of human FSHR.                                  |
| Immunogen Species                              | Human                                                                                                |
| Conjugate                                      | Non-conjugated                                                                                       |
| Preparation and Storage                        | Upon receipt, store at -20 degree C or -80 degree C. Avoid repeated freeze.                          |
