

## Rabbit anti-Human PMEPA1 Polyclonal Antibody | anti-PMEPA1 antibody

PMEPA1 Antibody

| CATALOG # | HOST   | REACTIVITY | APPLICATIONS                                                  |
|-----------|--------|------------|---------------------------------------------------------------|
| AAA236432 | Rabbit | Human      | ELISA, Immunofluorescence, Immunohistochemistry, Western Blot |

### PRODUCT SYNONYMS

PMEPA1; Polyclonal Antibody; PMEPA1 Antibody; STAG1; TMEPAI; Transmembrane prostate androgen-induced protein; Solid tumor-associated 1 protein; anti-PMEPA1 antibody

### PRODUCT SPECIFICATIONS

|                                                  |                                                                                                      |
|--------------------------------------------------|------------------------------------------------------------------------------------------------------|
| Host                                             | Rabbit                                                                                               |
| Reactivity                                       | Human                                                                                                |
| Clonality                                        | Polyclonal                                                                                           |
| Isotype                                          | IgG                                                                                                  |
| Purity/Purification                              | Affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| Form/Format                                      | Liquid; In Phosphate Buffered Saline, 50% Glycerol, 0.5% BSA and 0.02% Sodium Azide.                 |
| Applicable Applications for anti-PMEPA1 antibody | ELISA, IF (Immunofluorescence), IHC (Immunohistochemistry), WB (Western Blot)                        |
| Immunogen                                        | Synthesized peptide derived from the Internal region of human PMEPA1.                                |
| Immunogen Species                                | Human                                                                                                |
| Conjugate                                        | Non-conjugated                                                                                       |
| Preparation and Storage                          | Upon receipt, store at -20 degree C or -80 degree C. Avoid repeated freeze.                          |
