

Mouse Urinary Albumin ELISA Kit

Mouse Urinary Albumin ELISA Kit

CATALOG #
AAA23736

REACTIVITY
Mouse

PRODUCT SYNONYMS

Urinary Albumin; Mouse Urinary Albumin ELISA Kit; Urinary Albumin elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sensitivity	10 u g/mL
Intra-assay Precision	Intra-assay CV are less than 15%.
Inter-assay Precision	Inter-assay CV are less than 15%.

ADDITIONAL INFORMATION

Related Product Information for Urinary Albumin elisa kit

Intended Uses: This UALb ELISA kit is intended Laboratory for Research use only and is not for use in diagnostic or therapeutic procedures. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of UALb in the sample, this UALb ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus UALb concentration. The concentration of UALb in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
