

Mouse SSA IgG ELISA Kit

Mouse SSA IgG Antibody ELISA Kit

CATALOG #
AAA23750

REACTIVITY
Mouse

PRODUCT SYNONYMS

SSA IgG; Mouse SSA IgG Antibody ELISA Kit; SSA IgG elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sensitivity	1 ng/mL
Intra-assay Precision	Intra-assay CV less than 15%.
Inter-assay Precision	Inter-assay CV is less than 15%.

ADDITIONAL INFORMATION

Related Product Information for SSA IgG elisa kit

Intended Uses: This SSA IGG ANTIBODY ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of SSA IGG ANTIBODY in the sample, this SSA IGG ANTIBODY ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus SSA IGG ANTIBODY concentration. The concentration of SSA IGG ANTIBODY in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
