

Human Androstenediol ELISA Kit

Human Androstenediol ELISA Kit

CATALOG #
AAA244758

REACTIVITY
Human

PRODUCT SYNONYMS

Androstenediol; Human Androstenediol ELISA Kit; Androstenediol elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for Androstenediol elisa kit

Intended Uses: This AECA ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of AECA in the sample, this AECA ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a cutoff value. The existence or not of AECA in the samples is then determined by comparing the O.D. of the samples to the CUT OFF.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
