

Chicken Glycoprotein ELISA Kit | GP elisa kit

Chicken Glycoprotein ELISA Kit

CATALOG #
AAA245505

REACTIVITY
Chicken

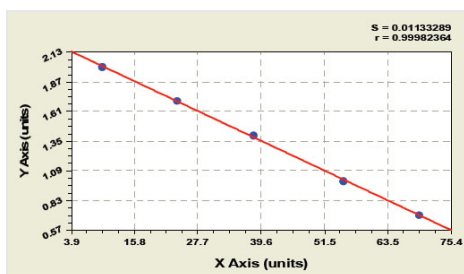

PRODUCT SYNONYMS

Glycoprotein; Chicken Glycoprotein ELISA Kit; GP elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Chicken
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	1.0 ng/mL.
Intended Uses	This GP ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Chicken GP. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for GP elisa kit

Principle of the assay: GP ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-GP antibody and an GP-HRP conjugate. The assay sample and buffer are incubated together with GP-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the GP concentration since GP from samples and GP-HRP conjugate compete for the anti-GP antibody binding site. Since the number of sites is limited, as more sites are occupied by GP from the sample, fewer sites are left to bind GP-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The GP concentration in each sample is interpolated from this standard curve.

Product Categories/Family for GP elisa kit

Neurobiology

NCBI AND UNIPROT INFORMATION

NCBI GI #	6103257
UniProt Accession #	O42008
Molecular Weight	56,953 Da
NCBI Official Full Name	glycoprotein
UniProt Protein Name	Glycoprotein protein
UniProt Gene Name	glycoprotein
UniProt Entry Name	O42008_9RHAB

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
