

Human beta soluble NSF attachment protein (NAPB) ELISA Kit | NAPB elisa kit

Human beta soluble NSF attachment protein (NAPB) ELISA Kit

CATALOG #
AAA245852

REACTIVITY
Human

PRODUCT SYNONYMS

beta soluble NSF attachment protein (NAPB); Human beta soluble NSF attachment protein (NAPB) ELISA Kit; Human b soluble NSF attachment protein (NAPB) ELISA Kit; NAPB elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, cell culture supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	1.0 ng/mL.
Preparation and Storage	Store all reagents at 2-8 degree C.

Intended Uses: This NAPB ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Human NAPB. This ELISA kit for research use only!

Principle of the Assay||NAPB ELISA kit applies the competitive enzyme immunoassay technique utilizing a Polyclonal anti-NAPB antibody and an NAPB-HRP conjugate. The assay sample and buffer are incubated together with NAPB-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the NAPB concentration since NAPB from samples and NAPB-HRP conjugate compete for the anti-NAPB antibody binding site. Since the number of sites is limited, as more sites are occupied by NAPB from the sample, fewer sites are left to bind NAPB-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The NAPB concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	545688329
NCBI GeneID	63908
NCBI Accession #	NP_001269947.1
NCBI GenBank Nucleotide #	NM_001283018.1
Molecular Weight	23,403 Da
NCBI Official Full Name	beta-soluble NSF attachment protein isoform a
NCBI Official Synonym Full Names	N-ethylmaleimide-sensitive factor attachment protein, beta
NCBI Official Symbol	NAPB
NCBI Official Synonym Symbols	SNAPB; SNAP-BETA
NCBI Protein Information	beta-soluble NSF attachment protein
UniProt Protein Name	Beta-soluble NSF attachment protein
UniProt Gene Name	NAPB
UniProt Synonym Gene Names	SNAPB; SNAP-beta
UniProt Entry Name	SNAB_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
