

Mouse Vigilin (HDLBP) ELISA Kit | HDLBP elisa kit

Mouse Vigilin (HDLBP) ELISA Kit

CATALOG #
AAA246652

REACTIVITY
Mouse

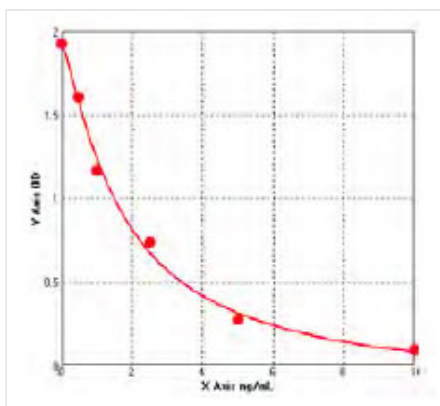

PRODUCT SYNONYMS

Vigilin (HDLBP); Mouse Vigilin (HDLBP) ELISA Kit; HDLBP elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Specificity	This assay has high sensitivity and excellent specificity for detection of HDLBP. No significant cross-reactivity or interference between HDLBP and analogues was observed. NOTE: Limited by current skills and knowledge, it is impossible for us to complete the cross-reactivity detection between HDLBP and all the analogues, therefore, cross reaction may still exist in some cases.
Assay Type	Quantitative Competitive
Samples	Serum, plasma, cell culture supernatants, body fluid and tissue homogenate
Sensitivity	0.1 ng/ml
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for HDLBP elisa kit	Principle of the Assay: HDLBP ELISA kit applies the competitive enzyme immunoassay technique utilizing a polyclonal anti-HDLBP antibody and an HDLBP-HRP conjugate. The assay sample and buffer are incubated together with HDLBP-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the HDLBP concentration since HDLBP from samples and HDLBP-HRP conjugate compete for the anti-HDLBP antibody binding site. Since the number of sites is limited, as more sites are occupied by HDLBP from the sample, fewer sites are left to bind HDLBP-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The HDLBP concentration in each sample is interpolated from this standard curve. Intended Uses: This HDLBP ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Mouse HDLBP. This ELISA kit for research use only, not for therapeutic or test applications!

NCBI AND UNIPROT INFORMATION

NCBI GI #	42716280
NCBI GeneID	3069
NCBI Accession #	NP_976221.1
NCBI GenBank Nucleotide #	NM_203346.3
Molecular Weight	137,987 Da
NCBI Official Full Name	vigilin isoform a
NCBI Official Synonym Full Names	high density lipoprotein binding protein
NCBI Official Symbol	HDLBP
NCBI Official Synonym Symbols	HBP; VGL; PRO2900
NCBI Protein Information	vigilin; HDL-binding protein; high density lipoprotein-binding protein
UniProt Protein Name	Vigilin
UniProt Gene Name	HDLBP
UniProt Synonym Gene Names	HBP; VGL; HDL-binding protein
UniProt Entry Name	VIGLN_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
