

## Human PRDM15 (PR Domain Zinc Finger Protein 15) ELISA Kit | PRDM15 elisa kit

Human PRDM15 (PR Domain Zinc Finger Protein 15) ELISA Kit

CATALOG #  
**AAA249181**

REACTIVITY  
**Human**

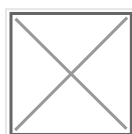

### PRODUCT SYNONYMS

PRDM15 (PR Domain Zinc Finger Protein 15); Human PRDM15 (PR Domain Zinc Finger Protein 15) ELISA Kit; C21orf83; PFM15; PR domain containing 15; PRDM15; Zinc finger protein 298; ZNF298; PRDM15 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                              |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Human                                                                                                                                                        |
| Sequence Length         | 1178                                                                                                                                                         |
| Assay Type              | Sandwich ELISA, Double Antibody                                                                                                                              |
| Samples                 | Serum, Plasma, Cell Culture Supernatant, cell or tissue lysate, Other liquid samples                                                                         |
| Detection Range         | 31.25-2000pg/ml                                                                                                                                              |
| Sensitivity             | 18.75pg/ml                                                                                                                                                   |
| Intra Assay             | CV<8%                                                                                                                                                        |
| Inter Assay             | CV<10%                                                                                                                                                       |
| Preparation and Storage | Store entire kit at 2-8C for short-term. For longer-term, please store the microplate & standard at -20C, while the remaining reagents can be stored at 2-8C |

### NCBI AND UNIPROT INFORMATION

|                            |                                            |
|----------------------------|--------------------------------------------|
| NCBI GI #                  | 94536868                                   |
| NCBI Accession #           | NP_001035514.1                             |
| NCBI GenBank Nucleotide #  | NP_001035514.1                             |
| UniProt Accession #        | P57071                                     |
| NCBI Official Full Name    | PR domain zinc finger protein 15 isoform 2 |
| UniProt Protein Name       | PR domain zinc finger protein 15           |
| UniProt Gene Name          | <b>PRDM15</b>                              |
| UniProt Synonym Gene Names | C21orf83; ZNF298                           |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
