

Human AD7c-NTP (neuronal thread protein) ELISA Kit | AD7c-NTP elisa kit

Human AD7c-NTP (neuronal thread protein) ELISA Kit

CATALOG #
AAA251043

REACTIVITY
Human

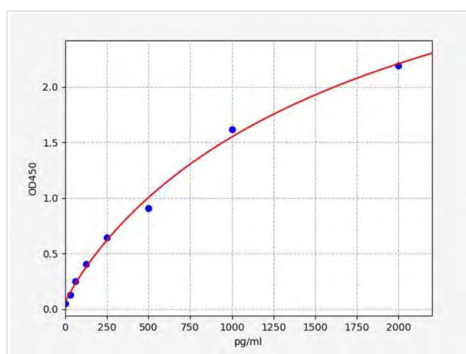

PRODUCT SYNONYMS

AD7c-NTP (neuronal thread protein); Human AD7c-NTP (neuronal thread protein) ELISA Kit; AD7c-NTP; neuronal thread protein; AD7c-NTP elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	Specifically recognize AD7c-NTP, no obvious cross reaction with other analogues
Assay Type	Sandwich
Samples	Serum, plasma, cell culture supernatant and other biological samples
Detection Range	31.25-2000pg/ml
Sensitivity	18.75pg/ml
Intra-assay Precision	Intra-assay Precision: samples with low, medium and high concentration are tested 20 times on same plate.
Inter-assay Precision	Inter-assay Precision: samples with low, medium and high concentration are tested 20 times on three different plates.
Preparation and Storage	Store entire kit at 2-8C for short-term. For longer-term, please store the microplate & standard at -20C, while the remaining reagents can be stored at 2-8C

ADDITIONAL INFORMATION

Related Product Information for AD7c-NTP elisa kit	Principle of the Assay: This kit was based on sandwich enzyme-linked immune-sorbent assay technology. Anti AD7c-NTP antibody was pre-coated onto the 96-well plate. The biotin conjugated anti AD7c-NTP antibody was used as the detection antibody. The standards and pilot samples were added to the wells subsequently. After incubation, unbound conjugates were removed by wash buffer. Then, biotinylated detection antibody was added to bind with AD7c-NTP conjugated on coated antibody. After washing off unbound conjugates, HRP-Streptavidin was added. After a third washing, TMB substrates were added to visualize HRP enzymatic reaction. TMB was catalyzed by HRP to produce a blue color product that turned yellow after adding a stop solution. Read the O.D. absorbance at 450nm in a microplate reader. The concentration of AD7c-NTP in the sample was calculated by drawing a standard curve. The concentration of the target substance is proportional to the OD450 value.
