

## Monkey SARS-CoV2 (S) IgA ELISA Kit | SARS-CoV2 elisa kit

Monkey anti-SARS-CoV2 (S) IgA ELISA Kit

CATALOG #  
**AAA251668**

REACTIVITY  
**Monkey**

### PRODUCT SYNONYMS

SARS-CoV2 (S) IgA; Monkey anti-SARS-CoV2 (S) IgA ELISA Kit; anti-SARS-CoV2 (S) IgA; SARS-CoV2 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                      |
|-------------------------|--------------------------------------------------------------------------------------|
| Reactivity              | Monkey                                                                               |
| Assay Type              | Indirect ELISA                                                                       |
| Samples                 | Serum, Plasma, Cell Culture Supernatant, cell or tissue lysate, Other liquid samples |
| Detection Range         | 0.391-25ng/ml                                                                        |
| Sensitivity             | 0.234ng/ml                                                                           |
| Time                    | 2 hours                                                                              |
| Preparation and Storage | Store at 2-8 degree C for 12 months                                                  |

### IMAGES

Standard Curve (Sample)

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
