

## Human S100A11 (Protein S100-A11) ELISA Kit | S100A11 elisa kit

Human S100A11 (Protein S100-A11) QuickTest ELISA Kit

CATALOG #  
**AAA252457**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

S100A11 (Protein S100-A11); Human S100A11 (Protein S100-A11) QuickTest ELISA Kit; Protein S100-A11; Calgizzarin; Metastatic lymph node gene 70 protein; MLN 70; Protein S100-C; S100 calcium-binding protein A11; N-terminally processed; S100A11; MLN70; S100C; S100A11 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                       |
|-------------------------|-------------------------------------------------------------------------------------------------------|
| Reactivity              | Human                                                                                                 |
| Assay Type              | Sandwich ELISA, Double Antibody                                                                       |
| Samples                 | Serum, plasma, cell culture supernatant, cell lysate or tissue lysate, other biological fluid samples |
| Detection Range         | 0.313-20ng/ml                                                                                         |
| Sensitivity             | 0.188ng/ml                                                                                            |
| Time                    | 120 minutes                                                                                           |
| Preparation and Storage | Store at 2-8 degree C for 12 months                                                                   |

### NCBI AND UNIPROT INFORMATION

|                           |                  |
|---------------------------|------------------|
| NCBI GI #                 | 5032057          |
| NCBI GeneID               | 6282             |
| NCBI Accession #          | NP_005611.1      |
| NCBI GenBank Nucleotide # | NM_005620.1      |
| UniProt Accession #       | P31949; Q5VTK0   |
| Molecular Weight          | 11,740 Da        |
| NCBI Official Full Name   | protein S100-A11 |

|                                  |                                                                                                                                                                     |
|----------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| NCBI Official Synonym Full Names | S100 calcium binding protein A11                                                                                                                                    |
| NCBI Official Symbol             | S100A11                                                                                                                                                             |
| NCBI Official Synonym Symbols    | MLN70; S100C; HEL-S-43                                                                                                                                              |
| NCBI Protein Information         | protein S100-A11; MLN 70; S100 calcium-binding protein A11 (calgizzarin); epididymis secretory protein Li 43; metastatic lymph node gene 70 protein; protein S100-C |
| UniProt Protein Name             | Protein S100-A11                                                                                                                                                    |
| UniProt Gene Name                | <b>S100A11</b>                                                                                                                                                      |
| UniProt Synonym Gene Names       | MLN70; S100C; MLN 70                                                                                                                                                |
| UniProt Entry Name               | S10AB_HUMAN                                                                                                                                                         |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
