

## Rat TF (Tissue Factor) ELISA Kit | TF/F3 elisa kit

Rat TF (Tissue Factor) QuickTest ELISA Kit

CATALOG #  
**AAA252819**

REACTIVITY  
**Rat**

### PRODUCT SYNONYMS

TF (Tissue Factor); Rat TF (Tissue Factor) QuickTest ELISA Kit; Tissue factor; TF; Coagulation factor III; Thromboplastin; F3; TF/F3 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                       |
|-------------------------|-------------------------------------------------------------------------------------------------------|
| Reactivity              | Rat                                                                                                   |
| Assay Type              | Sandwich ELISA, Double Antibody                                                                       |
| Samples                 | Serum, plasma, cell culture supernatant, cell lysate or tissue lysate, other biological fluid samples |
| Detection Range         | 31.25-2000pg/ml                                                                                       |
| Sensitivity             | 18.75pg/ml                                                                                            |
| Time                    | 120 minutes                                                                                           |
| Preparation and Storage | Store at 2-8 degree C for 12 months                                                                   |

### NCBI AND UNIPROT INFORMATION

|                            |                        |
|----------------------------|------------------------|
| UniProt Accession #        | <a href="#">P42533</a> |
| UniProt Protein Name       | Tissue factor          |
| UniProt Gene Name          | <b>F3</b>              |
| UniProt Synonym Gene Names | Cf3; TF                |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
