

Rabbit anti-Human TLR6 Polyclonal Antibody | anti-TLR6 antibody

Anti-TLR6 Antibody, Rabbit Polyclonal

CATALOG # AAA254271	HOST Rabbit	REACTIVITY Human	APPLICATIONS Immunohistochemistry
-------------------------------	-----------------------	----------------------------	---

PRODUCT SYNONYMS

TLR6; Polyclonal Antibody; Anti-TLR6 Antibody; Rabbit Polyclonal; TLR6/CD286 Antibody; Rabbit PAb; Antigen Affinity Purified; toll like receptor 6; Anti-CD286 Antibody; anti-TLR6 antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	Human
Clonality	Polyclonal
Isotype	Rabbit IgG
Specificity	Human TLR6/CD286
Purity/Purification	Protein A & Antigen Affinity
Form/Format	Liquid; 0.2um filtered solution in PBS
Applicable Applications for anti-TLR6 antibody	IHC (Immunohistochemistry)
Immunogen	A synthetic peptide corresponding to the center region of the human TLR6/CD286
Conjugation	Unconjugated
Preparation	Produced in rabbits immunized with A synthetic peptide corresponding to the center region of the human TLR6/CD286, and purified by antigen affinity chromatography.
Preparation and Storage	This antibody can be stored at 2-8 degree C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20 degree C to -80 degree C. Preservative-Free. Avoid repeated freeze-thaw cycles.

IMAGES

IHC (Immunohistochemistry)

Immunochemical staining of human TLR6 in human breast carcinoma with rabbit polyclonal antibody (1:2000, formalin-fixed paraffin embedded sections).

IHC (Immunohistochemistry)

Immunochemical staining of human TLR6 in human hepatoma with rabbit polyclonal antibody (1:2000, formalin-fixed paraffin embedded sections).

ADDITIONAL INFORMATION

Related Product Information for anti-TLR6 antibody	Toll like receptors (TLRs) are involved in the modulation of diverse host genes expression through a complex network of signalling events that allow for an appropriate response to a microbial pathogen. The deregulated TLR6 expression may potentiate TLR2-mediated liver inflammation in NAFLD pathogenesis, and also serve as a potential peripheral biomarker of obesity-related NASH. Current evidence suggests that gut dysbiosis drives obesity and non-alcoholic fatty liver disease (NAFLD) pathogenesis.
Product Categories/Family for anti-TLR6 antibody	Neuroinflammation

NCBI AND UNIPROT INFORMATION

NCBI GeneID	704V6
-------------	-------

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
