

Rabbit anti-Human GLYATL1 Polyclonal Antibody | anti-GLYATL1 antibody

Anti-GLYATL1 Antibody, Rabbit Polyclonal

CATALOG # AAA256785	HOST Rabbit	REACTIVITY Human	APPLICATIONS Immunohistochemistry
-------------------------------	-----------------------	----------------------------	---

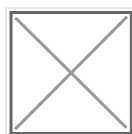

PRODUCT SYNONYMS

GLYATL1; Polyclonal Antibody; Anti-GLYATL1 Antibody; Rabbit Polyclonal; GLYATL1 Antibody; Rabbit PAb; Antigen Affinity Purified; Anti-GATF-C Antibody; Anti-GNAT Antibody; anti-GLYATL1 antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	Human
Clonality	Polyclonal
Isotype	Rabbit IgG
Specificity	Human GLYATL1
Purity/Purification	Protein A & Antigen Affinity
Form/Format	Liquid; PBS, pH7.0 with 0.03% Proclin300
Applicable Applications for anti-GLYATL1 antibody	IHC (Immunohistochemistry)
Immunogen	E Coli-derived Human GLYATL1 fragment
Conjugation	Unconjugated
Preparation	Produced in rabbits immunized with E Coli-derived Human GLYATL1 fragment, and purified by antigen affinity chromatography.
Preparation and Storage	This antibody can be stored at 2-8 degree C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20 degree C to -80 degree C. Avoid repeated freeze-thaw cycles.

IMAGES

IHC (Immunohistochemistry)

Immunochemical staining of human GLYATL1 in human liver with rabbit polyclonal antibody at 1:100 dilution, formalin-fixed paraffin embedded sections.

IHC (Immunohistochemistry)

Immunochemical staining of human GLYATL1 in human kidney with rabbit polyclonal antibody at 1:100 dilution, formalin-fixed paraffin embedded sections.

ADDITIONAL INFORMATION

Related Product Information for anti-GLYATL1 antibody	GLYATL1 (Glycine-N-Acyltransferase Like 1, also known as GNAT; GATF-C), located on human chromosome 11q12.1, belongs to the glycine N-acyltransferase family. 19 organisms have orthologs with human gene GLYATL1. GLYATL gene is related to glycine N-acyltransferase activity and glutamine N-acyltransferase activity. An important paralog of this gene is GLYATL1B. GLYATL1 an acyltransferase that transfers an acyl group to the N-terminus of glutamine. GLYATL1 can use phenylacetyl-CoA as an acyl donor. GLYATL1 is associated with some diseases, including Complement Component 7 Deficiency and Blackwater Fever.
