

Rabbit anti-Human FAM129B Polyclonal Antibody | anti-FAM129B antibody

FAM129B Antibody, Rabbit PAb, Antigen Affinity Purified

CATALOG # AAA258653	HOST Rabbit	REACTIVITY Human	APPLICATIONS Immunohistochemistry
-------------------------------	-----------------------	----------------------------	---

PRODUCT SYNONYMS

FAM129B; Polyclonal Antibody; FAM129B Antibody; Rabbit PAb; Antigen Affinity Purified; Anti-bA356B19.6 Antibody; Anti-C9orf88 Antibody; Anti-MEG-3 Antibody; Anti-MINERVA Antibody; Anti-OC58 Antibody; anti-FAM129B antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	Human
Clonality	Polyclonal
Specificity	Human FAM129B
Applicable Applications for anti-FAM129B antibody	IHC (Immunohistochemistry)
Preparation	Produced in rabbits immunized with E Coli-derived Human FAM129B fragment, and purified by antigen affinity chromatography.
Preparation and Storage	This antibody can be stored at 2-8 degree C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20 to -80 degree C. Avoid repeated freeze-thaw cycles.

IMAGES

IHC (Immunohistochemistry)

Immunochemical staining of human FAM129B in human stomach with rabbit polyclonal antibody at 1:200 dilution, formalin-fixed paraffin embedded sections.

IHC (Immunohistochemistry)

Immunochemical staining of human FAM129B in human placenta with rabbit polyclonal antibody at 1:200 dilution, formalin-fixed paraffin embedded sections.

ADDITIONAL INFORMATION

Related Product Information for anti-FAM129B antibody

Family with sequence similarity 129, member B (FAM129B, also known as MINERVA) contains a pleckstrin homology (PH) domain near the amine terminus and a proline-rich domain near the carboxyl end. FAM129B has been found to promote tumor cell invasion via extracellular signal-regulated protein kinases 1 and 2 (ERK1/2)-dependent phosphorylation. In addition, FAM129B depletion inhibits Wnt3A/beta-catenin target gene AXIN2 expression and promotes TNFalpha-induced apoptosis. FAM129B is up-regulated in many types of cancer, including breast, kidney, large intestine, lung, endometrial cancers, and haematopoietic and central nervous system tumors.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
