

# Rabbit anti-Human, Mouse MAP3K7/TAK1 Polyclonal Antibody | anti-MAP3K7/TAK1 antibody

Anti-MAP3K7/TAK1 Antibody, Rabbit Polyclonal

| CATALOG # | HOST   | REACTIVITY   | APPLICATIONS         |
|-----------|--------|--------------|----------------------|
| AAA258889 | Rabbit | Human, Mouse | Immunohistochemistry |

## PRODUCT SYNONYMS

MAP3K7/TAK1; Polyclonal Antibody; Anti-MAP3K7/TAK1 Antibody; Rabbit Polyclonal; mitogen-activated protein kinase kinase kinase 7; Anti-CSCF Antibody; Anti-FMD2 Antibody; Anti-MEKK7 Antibody; Anti-TAK1 Antibody; Anti-TGF1a Antibody; anti-MAP3K7/TAK1 antibody

## PRODUCT SPECIFICATIONS

|                                                       |                                                                                                                                                                                                                                                                       |
|-------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                                  | Rabbit                                                                                                                                                                                                                                                                |
| Reactivity                                            | Human, Mouse                                                                                                                                                                                                                                                          |
| Clonality                                             | Polyclonal                                                                                                                                                                                                                                                            |
| Isotype                                               | Rabbit IgG                                                                                                                                                                                                                                                            |
| Specificity                                           | Human MAP3K7/TAK1                                                                                                                                                                                                                                                     |
| Purity/Purification                                   | Protein A & Antigen Affinity                                                                                                                                                                                                                                          |
| Form/Format                                           | Liquid; 0.2um filtered solution in PBS                                                                                                                                                                                                                                |
| Applicable Applications for anti-MAP3K7/TAK1 antibody | IHC (Immunohistochemistry)                                                                                                                                                                                                                                            |
| Immunogen                                             | A synthetic peptide corresponding to the C terminus of the Human MAP3K7/TAK1                                                                                                                                                                                          |
| Preparation                                           | Produced in rabbits immunized with a synthetic peptide corresponding to the C terminus of the Human MAP3K7/TAK1, and purified by antigen affinity chromatography.                                                                                                     |
| Preparation and Storage                               | This antibody can be stored at 2-8 degree C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20 degree C to -80 degree C. Preservative-Free. Avoid repeated freeze-thaw cycles. |

## IMAGES

**IHC (Immunohistochemistry)**  
Immunohistochemical staining of human M3K7 in human stomach with rabbit polyclonal antibody at 1:200 dilution, formalin-fixed paraffin embedded sections.

**IHC (Immunohistochemistry)**  
Immunohistochemical staining of human M3K7 in human brain with rabbit polyclonal antibody at 1:200 dilution, formalin-fixed paraffin embedded sections.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
