

## Rabbit Ubiquilin 3 Polyclonal Antibody | anti-UBQLN3 antibody

Anti-Ubiquilin 3 Antibody

|                               |                       |                                                 |                                                           |
|-------------------------------|-----------------------|-------------------------------------------------|-----------------------------------------------------------|
| CATALOG #<br><b>AAA259927</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Human, Rat, Bovine, Monkey</b> | APPLICATIONS<br><b>Immunohistochemistry, Western Blot</b> |
|-------------------------------|-----------------------|-------------------------------------------------|-----------------------------------------------------------|

### PRODUCT SYNONYMS

Ubiquilin 3; Polyclonal Antibody; Anti-Ubiquilin 3 Antibody; Ubiquilin-3; anti-UBQLN3 antibody

### PRODUCT SPECIFICATIONS

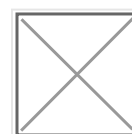

|                                                  |                                                                                                                                            |
|--------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                             | Rabbit                                                                                                                                     |
| Reactivity                                       | Human, Rat, Bovine, Monkey                                                                                                                 |
| Clonality                                        | Polyclonal                                                                                                                                 |
| Specificity                                      | Recognizes endogenous levels of Ubiquilin 3 protein.                                                                                       |
| Purity/Purification                              | The antibody was purified by immunogen affinity chromatography.                                                                            |
| Form/Format                                      | Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.                                  |
| Sequence Length                                  | 655                                                                                                                                        |
| Applicable Applications for anti-UBQLN3 antibody | IHC (Immunohistochemistry), WB (Western Blot)                                                                                              |
| Immunogen                                        | KLH-conjugated synthetic peptide encompassing a sequence within the center region of human Ubiquilin 3. The exact sequence is proprietary. |
| Preparation and Storage                          | Shipped at 4 degree C. Upon delivery aliquot and store at -20 degree C for one year. Avoid freeze/thaw cycles.                             |

### IMAGES

#### IHC (Immunohistochemistry)

Immunohistochemical analysis of Ubiquilin 3 staining in human testis formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.

#### WB (Western Blot)

Western blot analysis of Ubiquilin 3 expression in HepG2 (A), rat brain (B), rat liver (C) whole cell lysates.
