### PRODUCT SYNONYMS

c-Jun; Polyclonal Antibody; Anti-c-Jun (pS63) Phospho Antibody; Transcription factor AP-1; Activator protein 1; AP1; Proto-oncogene c-Jun; V-jun avian sarcoma virus 17 oncogene homolog; p39; anti-JUN antibody

### PRODUCT SPECIFICATIONS

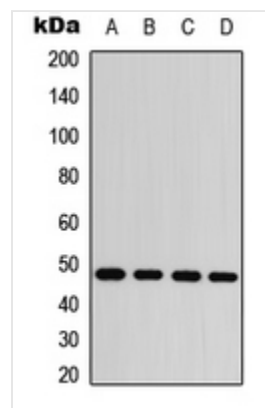

|                                               |                                                                                                                                      |
|-----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Host                                          | Rabbit                                                                                                                               |
| Reactivity                                    | Human, Mouse, Rat, Bovine, Rabbit, Sheep                                                                                             |
| Clonality                                     | Polyclonal                                                                                                                           |
| Specificity                                   | Recognizes endogenous levels of c-Jun (pS63) protein.                                                                                |
| Purity/Purification                           | The antibody was purified by immunogen affinity chromatography.                                                                      |
| Form/Format                                   | Liquid in 0.42% Potassium Phosphate, 0.87% Sodium Chloride, pH 7.3, 30% Glycerol, and 0.01% Sodium Azide.                            |
| Sequence Length                               | 331                                                                                                                                  |
| Applicable Applications for anti-JUN antibody | IHC (Immunohistochemistry), WB (Western Blot)                                                                                        |
| Immunogen                                     | KLH-conjugated synthetic peptide encompassing a sequence within the center region of human c-Jun. The exact sequence is proprietary. |
| Preparation and Storage                       | Shipped and store at 4 degree C for one year. Do not freeze.                                                                         |

### IMAGES

#### IHC (Immunohistochemistry)

Immunohistochemical analysis of c-Jun (pS63) staining in human breast cancer formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.

#### WB (Western Blot)

Western blot analysis of c-Jun (pS63) expression in MCF7 (A), HeLa UV-treated (B), NIH3T3 (C), PC12 (D) whole cell lysates.
