

## Rabbit MAVS Polyclonal Antibody | anti-MAVS antibody

Anti-MAVS Antibody

|                               |                       |                                        |                                                          |
|-------------------------------|-----------------------|----------------------------------------|----------------------------------------------------------|
| CATALOG #<br><b>AAA262669</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Human, Mouse, Rat</b> | APPLICATIONS<br><b>Immunoprecipitation, Western Blot</b> |
|-------------------------------|-----------------------|----------------------------------------|----------------------------------------------------------|

### PRODUCT SYNONYMS

MAVS; Polyclonal Antibody; Anti-MAVS Antibody; IPS1; KIAA1271; VISA; Mitochondrial antiviral-signaling protein; CARD adapter inducing interferon beta; Cardif; Interferon beta promoter stimulator protein 1; IPS-1; Putative NF-kappa-B-activating protein 031N; Virus-induced-signaling adapter; anti-MAVS antibody

### PRODUCT SPECIFICATIONS

|                                                |                                                                                                           |
|------------------------------------------------|-----------------------------------------------------------------------------------------------------------|
| Host                                           | Rabbit                                                                                                    |
| Reactivity                                     | Human, Mouse, Rat                                                                                         |
| Clonality                                      | Polyclonal                                                                                                |
| Specificity                                    | Recognizes endogenous levels of MAVS protein.                                                             |
| Purity/Purification                            | The antibody was purified by immunogen affinity chromatography.                                           |
| Form/Format                                    | Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide. |
| Sequence Length                                | 399                                                                                                       |
| Applicable Applications for anti-MAVS antibody | IP (Immunoprecipitation), WB (Western Blot)                                                               |
| Immunogen                                      | Recombinant full length protein of human MAVS                                                             |
| Preparation and Storage                        | Upon receipt aliquot and store at -20°C for one year. Avoid freeze/thaw cycles.                           |

### IMAGES

#### WB (Western Blot)

Western blot analysis of MAVS expression in HepG2 (A), MCF7 (B) whole cell lysates. (Predicted band size: 14; 15; 17; 40; 56 kD; Observed band size: 70 kD)
