

## Mouse CXCL11 ELISA Kit | CXCL11 elisa kit

Mouse CXCL11 ELISA Kit

CATALOG #  
**AAA263378**

REACTIVITY  
**Mouse**

### PRODUCT SYNONYMS

CXCL11; Mouse CXCL11 ELISA Kit; ITAC; SCYB11; SCYB9B; C-X-C motif chemokine 11; Beta-R1; H174; Interferon gamma-inducible protein 9; IP-9; Interferon-inducible T-cell alpha chemoattractant; I-TAC; Small-inducible cytokine B11; CXCL11 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                 |
|-------------------------|-------------------------------------------------------------------------------------------------|
| Reactivity              | Mouse                                                                                           |
| Sequence Length         | 100                                                                                             |
| Assay Type              | Sandwich ELISA                                                                                  |
| Samples                 | Cell Culture Supernates, Serum, Plasma                                                          |
| Detection Range         | 62.5 pg/ml - 4000 pg/ml                                                                         |
| Sensitivity             | 30 pg/ml                                                                                        |
| Detection Method        | Colorimetric                                                                                    |
| Preparation and Storage | Store at 4 degree C for 6 months, store at -20 degree C for one year. Avoid freeze/thaw cycles. |

Related Product Information for  
CXCL11 elisa kit

Sandwich ELISA for quantitative detection of Mouse CXCL11 concentrations.

### NCBI AND UNIPROT INFORMATION

|                           |             |
|---------------------------|-------------|
| NCBI GI #                 | 9507071     |
| NCBI GeneID               | 56066       |
| NCBI Accession #          | NP_062367.1 |
| NCBI GenBank Nucleotide # | NM_019494.1 |

|                                  |                                                             |
|----------------------------------|-------------------------------------------------------------|
| UniProt Accession #              | <a href="#">Q9JHH5</a>                                      |
| Molecular Weight                 | 11,266 Da                                                   |
| NCBI Official Full Name          | C-X-C motif chemokine 11                                    |
| NCBI Official Synonym Full Names | chemokine (C-X-C motif) ligand 11                           |
| NCBI Official Symbol             | Cxcl11                                                      |
| NCBI Official Synonym Symbols    | Ip9; H174; Itac; b-R1; Cxc11; I-tac; Scyb11; Scyb9b; betaR1 |
| NCBI Protein Information         | C-X-C motif chemokine 11                                    |
| UniProt Protein Name             | C-X-C motif chemokine 11                                    |
| UniProt Gene Name                | <b>Cxcl11</b>                                               |
| UniProt Synonym Gene Names       | Scyb11; I-TAC                                               |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
