

## Rabbit LIPH Polyclonal Antibody | anti-LIPH antibody

LIPH Antibody

| CATALOG # | HOST   | REACTIVITY                     | APPLICATIONS                              |
|-----------|--------|--------------------------------|-------------------------------------------|
| AAA266602 | Rabbit | Human<br>Predicted: Mouse, Rat | Immunohistochemistry, Western Blot, ELISA |

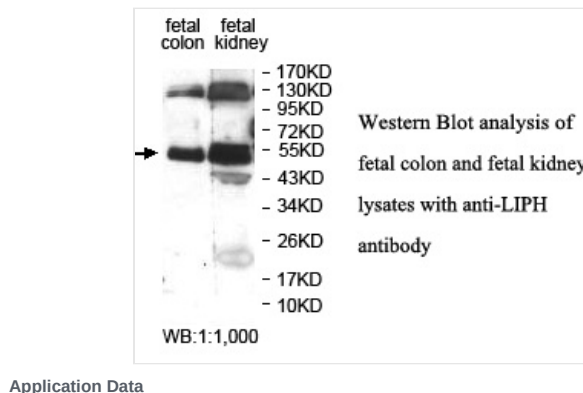

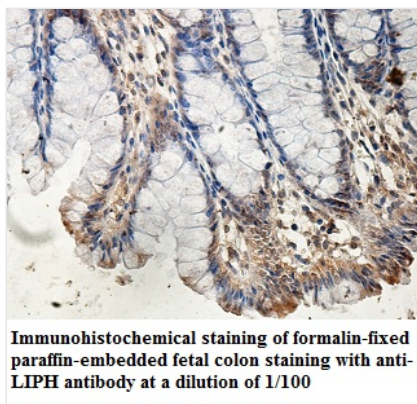

### PRODUCT SYNONYMS

LIPH; Polyclonal Antibody; LIPH Antibody; anti-LIPH antibody

### PRODUCT SPECIFICATIONS

|                                                |                                                                                                                                                                                            |
|------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                           | Rabbit                                                                                                                                                                                     |
| Reactivity                                     | Human<br>Predicted: Mouse, Rat                                                                                                                                                             |
| Clonality                                      | Polyclonal                                                                                                                                                                                 |
| Form/Format                                    | Purified by protein affinity column containing 1% BSA and 0.02% NaN <sub>3</sub> .                                                                                                         |
| Sequence Length                                | 2452                                                                                                                                                                                       |
| Applicable Applications for anti-LIPH antibody | IHC (Immunohistochemistry), WB (Western Blot), ELISA                                                                                                                                       |
| Preparation and Storage                        | Already reconstituted in 200ul sterile H <sub>2</sub> O. The antibody is stable for at least one year when stored at -20 degree C after reconstitution. Avoid repeated freeze/thaw cycles. |
