

HA Monoclonal Antibody | anti-HA antibody

HA Mouse Monoclonal Antibody (2C1)

CATALOG # AAA266737	APPLICATIONS Immunoprecipitation, Western Blot
-------------------------------	--

PRODUCT SYNONYMS

HA; Monoclonal Antibody; HA Mouse Monoclonal Antibody (2C1); anti-HA antibody

PRODUCT SPECIFICATIONS

Clonality	Monoclonal
Clone Number	2C1
Specificity	The HA tag antibody can recognize C-terminal, internal, and N-terminal HA-tag fusion proteins.
Form/Format	Mouse IgG1 in phosphate buffered saline (without Mg2+ and Ca2+), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.
Applicable Applications for anti-HA antibody	IP (Immunoprecipitation), WB (Western Blot)
Preparation and Storage	Store at -20 degree C for 1 year

IMAGES

WB (Western Blot)

Western blot analysis of Recombinant protein with HA Mouse Monoclonal Antibody (2C1) diluted at 1) 1:5,000, 2) 1:10,000.

ADDITIONAL INFORMATION

Related Product Information for anti-HA antibody

Human influenza hemagglutinin (HA) is a surface glycoprotein required for the infectivity of the human virus. The HA tag is derived from the HA-molecule corresponding to amino acids 98-106 has been extensively used as a general epitope tag in expression vectors. Many recombinant proteins have been engineered to express the HA tag, which does not appear to interfere with the bioactivity or the biodistribution of the recombinant protein. HA tag antibody is a highly sensitive and affinity monoclonal antibody applicable to HA-tagged fusion protein detection.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
