### PRODUCT SYNONYMS

CHRNA9; Polyclonal Antibody; CHRNA9 Antibody; anti-CHRNA9 antibody

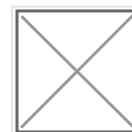

### PRODUCT SPECIFICATIONS

|                                                  |                                                                                                                                                                                            |
|--------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                             | Rabbit                                                                                                                                                                                     |
| Reactivity                                       | Human<br>Predicted: Mouse, Rat                                                                                                                                                             |
| Clonality                                        | Polyclonal                                                                                                                                                                                 |
| Form/Format                                      | Purified by peptide affinity column containing 1% BSA and 0.02% NaN <sub>3</sub>                                                                                                           |
| Sequence Length                                  | 479                                                                                                                                                                                        |
| Applicable Applications for anti-CHRNA9 antibody | IHC (Immunohistochemistry), WB (Western Blot), ELISA                                                                                                                                       |
| Preparation and Storage                          | Already reconstituted in 200ul sterile H <sub>2</sub> O. The antibody is stable for at least one year when stored at -20 degree C after reconstitution. Avoid repeated freeze/thaw cycles. |
