

Human C5c (Complement C5 Convertase) ELISA Kit | C5c elisa kit

Human C5c (Complement C5 Convertase) ELISA Kit

CATALOG #
AAA270463

REACTIVITY
Human

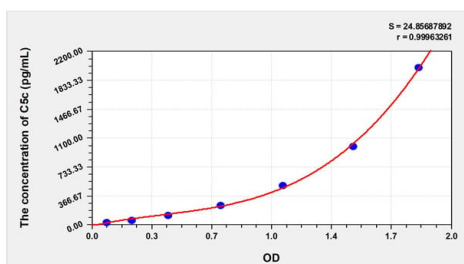

PRODUCT SYNONYMS

C5c (Complement C5 Convertase); Human C5c (Complement C5 Convertase) ELISA Kit; C4b2a3b; C5c elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids
Assay Type	Sandwich
Detection Range	31.25-2000 pg/mL
Sensitivity	15.1 pg/mL
Intra-assay Precision	CV%<8%
Inter-assay Precision	CV%<10%
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for C5c elisa kit

Principle of the assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Complement C5 Convertase(C5c). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Complement C5 Convertase(C5c). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Complement C5 Convertase(C5c), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Complement C5 Convertase(C5c) in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for C5c elisa kit

Enzyme & Kinase; Infection immunity

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
