

Human LXRA (Liver X Receptor Alpha) ELISA Kit | LXRA elisa kit

Human LXRA (Liver X Receptor Alpha) ELISA Kit

CATALOG #
AAA271173

REACTIVITY
Human

PRODUCT SYNONYMS

LXRA (Liver X Receptor Alpha); Human LXRA (Liver X Receptor Alpha) ELISA Kit; NR1-H3; LXR-A; LXRA; RLD-1; Nuclear Receptor Subfamily 1; Group H; Member 3; Oxysterols receptor LXR-alpha; LXRA elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Tissue homogenates, cell lysates and other biological fluids.
Assay Type	Sandwich
Detection Range	0.16-10 ng/mL
Sensitivity	0.056 ng/mL
Intra-assay Precision	CV%<8%
Inter-assay Precision	CV%<10%
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for LXRA elisa kit

Principle of the assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Liver X Receptor Alpha(LXRA). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Liver X Receptor Alpha(LXRA). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Liver X Receptor Alpha(LXRA), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Liver X Receptor Alpha(LXRA) in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for LXRA elisa kit

Signal transduction; Metabolic pathway; Infection immunity; Hepatology

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
