

Human ETRB (Endothelin Receptor B) ELISA Kit | ETRB elisa kit

Human ETRB (Endothelin Receptor B) ELISA Kit

CATALOG #
AAA271180

REACTIVITY
Human

PRODUCT SYNONYMS

ETRB (Endothelin Receptor B); Human ETRB (Endothelin Receptor B) ELISA Kit; EDNRB; ABCDS; ETB; ETR-B; HSCR; HSCR2; Endothelin receptor non-selective type; Endothelin B receptor; ETRB elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Tissue homogenates, cell lysates and other biological fluids
Assay Type	Sandwich
Detection Range	0.32-20 ng/mL
Sensitivity	0.115 ng/mL
Intra-assay Precision	CV%<8%
Inter-assay Precision	CV%<10%
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for ETRB elisa kit

Principle of the assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Endothelin Receptor B(ETRB). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Endothelin Receptor B(ETRB). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Endothelin Receptor B(ETRB), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Endothelin Receptor B(ETRB) in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for ETRB elisa kit
