

Mouse HCII (Heparin Cofactor II) ELISA Kit | HCII elisa kit

Mouse HCII (Heparin Cofactor II) ELISA Kit

CATALOG #
AAA271275

REACTIVITY
Mouse

PRODUCT SYNONYMS

HCII (Heparin Cofactor II); Mouse HCII (Heparin Cofactor II) ELISA Kit; SERPIND1; HC2; HCF2; HC II; HLS2; LS2; Serpin D1; Serpin Peptidase Inhibitor Clade D Member 1; Protease inhibitor leuserpin-2; HCII elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Samples	Plasma
Assay Type	Sandwich
Detection Range	0.16-10 ng/mL
Sensitivity	0.069 ng/mL
Intra-assay Precision	CV%<8%
Inter-assay Precision	CV%<10%
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for HCII elisa kit

Principle of the assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Heparin Cofactor II(HCII). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Heparin Cofactor II(HCII). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Heparin Cofactor II(HCII), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Heparin Cofactor II(HCII) in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for HCII elisa kit
