

Human HDAC2 (Histone Deacetylase 2) ELISA Kit | HDAC2 elisa kit

Human HDAC2 (Histone Deacetylase 2) ELISA Kit

CATALOG #
AAA271332

REACTIVITY
Human

PRODUCT SYNONYMS

HDAC2 (Histone Deacetylase 2); Human HDAC2 (Histone Deacetylase 2) ELISA Kit; RPD3; YAF1; HD2; HDAC2 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	tissue homogenates, cell lysates and other biological fluids
Assay Type	Sandwich
Detection Range	0.16-10 ng/mL
Sensitivity	0.054 ng/mL
Intra-assay Precision	CV%<8%
Inter-assay Precision	CV%<10%
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for HDAC2 elisa kit

Principle of the assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Histone Deacetylase 2(HDAC2). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Histone Deacetylase 2(HDAC2). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Histone Deacetylase 2(HDAC2), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Histone Deacetylase 2(HDAC2) in the samples is then determined by comparing the OD of the samples to the standard curve.
