

## Rat PTGES (Prostaglandin E Synthase, Microsomal) ELISA Kit | PTGES elisa kit

Rat PTGES (Prostaglandin E Synthase, Microsomal) ELISA Kit

CATALOG #  
**AAA272966**

REACTIVITY  
**Rat**

### PRODUCT SYNONYMS

PTGES (Prostaglandin E Synthase; Microsomal); Rat PTGES (Prostaglandin E Synthase; Microsomal) ELISA Kit; MGST1L1; MGST-IV; MGST1-L1; PGES; PIG12; PP102; PP1294; TP53I12; PGE Synthase; Tumor Protein p53 Inducible Protein 12; Glutathione S-Transferase 1-Like 1; MGST1-Like 1; PTGES elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                     |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Rat                                                                                                                                                                                 |
| Specificity             | This assay has high sensitivity and excellent specificity for detection of Rat PTGES. No significant cross-reactivity or interference between Rat PTGES and analogues was observed. |
| Assay Type              | Sandwich                                                                                                                                                                            |
| Detection Range         | 0.32-20 ng/mL                                                                                                                                                                       |
| Sensitivity             | 0.115 ng/mL                                                                                                                                                                         |
| Intra-assay Precision   | Intra-assay Precision (Precision within an assay)? CV%<8%. Three samples of known concentration were tested twenty times on one plate to assess intra-assay precision.              |
| Inter-assay Precision   | Inter-assay Precision (Precision between assays)? CV%<10%. Three samples of known concentration were tested in forty separate assays to assess inter-assay precision.               |
| Preparation and Storage | Store at 2-8 degree C. Stable for 6 months from date of receipt.                                                                                                                    |

### ADDITIONAL INFORMATION

#### Related Product Information for PTGES elisa kit

**Principle of the Assay:** The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Prostaglandin E Synthase, Microsomal (PTGES). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Prostaglandin E Synthase, Microsomal (PTGES). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Prostaglandin E Synthase, Microsomal (PTGES), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm  $\pm$  10nm. The concentration of Prostaglandin E Synthase, Microsomal (PTGES) in the samples is then determined by comparing the OD of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
