

Mouse LXRa (Liver X Receptor Alpha) ELISA Kit | LXRa elisa kit

Mouse LXRa (Liver X Receptor Alpha) ELISA Kit

CATALOG #
AAA274586

REACTIVITY
Mouse

PRODUCT SYNONYMS

LXRa (Liver X Receptor Alpha); Mouse LXRa (Liver X Receptor Alpha) ELISA Kit; NR1-H3; LXR-A; LXRA; RLD-1; Nuclear Receptor Subfamily 1; Group H; Member 3; Oxysterols receptor LXR-alpha; LXRa elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Specificity	This assay has high sensitivity and excellent specificity for detection of Mouse LXRa. No significant cross-reactivity or interference between Mouse LXRa and analogues was observed.
Assay Type	Sandwich
Detection Range	0.32-20 ng/mL
Sensitivity	0.103 ng/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay)? CV%<8%. Three samples of known concentration were tested twenty times on one plate to assess intra-assay precision.
Inter-assay Precision	Inter-assay Precision (Precision between assays)? CV%<10%. Three samples of known concentration were tested in forty separate assays to assess inter-assay precision.
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for LXRA elisa kit	Principle of the Assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Liver X Receptor Alpha(LXRa). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Liver X Receptor Alpha(LXRa). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Liver X Receptor Alpha(LXRa), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Liver X Receptor Alpha(LXRa) in the samples is then determined by comparing the OD of the samples to the standard curve.
Product Categories/Family for LXRA elisa kit	Signal transduction; Metabolic pathway; Infection immunity; Hepatology

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
