

## Human RPS6Ka1 (Ribosomal Protein S6 Kinase Alpha 1) ELISA Kit | RPS6Ka1 elisa kit

Human RPS6Ka1 (Ribosomal Protein S6 Kinase Alpha 1) ELISA Kit

CATALOG #  
AAA275037

REACTIVITY  
Human

### PRODUCT SYNONYMS

RPS6Ka1 (Ribosomal Protein S6 Kinase Alpha 1); Human RPS6Ka1 (Ribosomal Protein S6 Kinase Alpha 1) ELISA Kit; HU-1; MAPKAPK1A; RSK; RSK1; S6K-alpha 1; 90 kDa ribosomal protein S6 kinase 1; MAP kinase-activated protein kinase 1a; Ribosomal S6 kinase 1; RPS6Ka1 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                             |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Human                                                                                                                                                                                       |
| Specificity             | This assay has high sensitivity and excellent specificity for detection of Human RPS6Ka1. No significant cross-reactivity or interference between Human RPS6Ka1 and analogues was observed. |
| Assay Type              | Sandwich                                                                                                                                                                                    |
| Detection Range         | 0.32-20 ng/mL                                                                                                                                                                               |
| Sensitivity             | 0.117 ng/mL                                                                                                                                                                                 |
| Intra-assay Precision   | Intra-assay Precision (Precision within an assay)? CV%<8%. Three samples of known concentration were tested twenty times on one plate to assess intra-assay precision.                      |
| Inter-assay Precision   | Inter-assay Precision (Precision between assays)? CV%<10%. Three samples of known concentration were tested in forty separate assays to assess inter-assay precision.                       |
| Preparation and Storage | Store at 2-8 degree C. Stable for 6 months from date of receipt.                                                                                                                            |

### ADDITIONAL INFORMATION

#### Related Product Information for RPS6Ka1 elisa kit

**Principle of the Assay:** The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Ribosomal Protein S6 Kinase Alpha 1(RPS6Ka1). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Ribosomal Protein S6 Kinase Alpha 1(RPS6Ka1). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Ribosomal Protein S6 Kinase Alpha 1(RPS6Ka1), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Ribosomal Protein S6 Kinase Alpha 1(RPS6Ka1) in the samples is then determined by comparing the OD of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
