

## Rat HSPG (Heparan Sulfate Proteoglycan) ELISA Kit | HSPG elisa kit

Rat HSPG (Heparan Sulfate Proteoglycan) ELISA Kit

CATALOG #  
**AAA275529**

REACTIVITY  
**Rat**

### PRODUCT SYNONYMS

HSPG (Heparan Sulfate Proteoglycan); Rat HSPG (Heparan Sulfate Proteoglycan) ELISA Kit; SDC2; HSPG1; SYND2; Fibroglycan; Syndecan 2; Syndecan Proteoglycan 2; Heparan Sulfate Proteoglycan 1; Cell Surface-Associated; Heparan Sulphate Proteoglycan; HSPG elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                   |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Rat                                                                                                                                                                               |
| Specificity             | This assay has high sensitivity and excellent specificity for detection of Rat HSPG. No significant cross-reactivity or interference between Rat HSPG and analogues was observed. |
| Assay Type              | Sandwich                                                                                                                                                                          |
| Detection Range         | 31.25-2000 pg/mL                                                                                                                                                                  |
| Sensitivity             | 12.7 pg/mL                                                                                                                                                                        |
| Intra-assay Precision   | Intra-assay Precision (Precision within an assay)? CV%<8%. Three samples of known concentration were tested twenty times on one plate to assess intra-assay precision.            |
| Inter-assay Precision   | Inter-assay Precision (Precision between assays)? CV%<10%. Three samples of known concentration were tested in forty separate assays to assess inter-assay precision.             |
| Preparation and Storage | Store at 2-8 degree C. Stable for 6 months from date of receipt.                                                                                                                  |

### ADDITIONAL INFORMATION

#### Related Product Information for HSPG elisa kit

**Principle of the Assay:** The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Heparan Sulfate Proteoglycan(HSPG). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Heparan Sulfate Proteoglycan(HSPG). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Heparan Sulfate Proteoglycan(HSPG), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Heparan Sulfate Proteoglycan(HSPG) in the samples is then determined by comparing the OD of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
