

Avian bHB (Beta-Hydroxybutyric Acid) ELISA Kit | bHB elisa kit

Avian bHB (Beta-Hydroxybutyric Acid) ELISA Kit

CATALOG #
AAA276272

REACTIVITY
Avian

PRODUCT SYNONYMS

bHB (Beta-Hydroxybutyric Acid); Avian bHB (Beta-Hydroxybutyric Acid) ELISA Kit; OHB; Beta-Hydroxybutyrate; 3-Hydroxybutyric Acid; bHB elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Avian
Specificity	This assay has high sensitivity and excellent specificity for detection of Avian bHB. No significant cross-reactivity or interference between Avian bHB and analogues was observed.
Assay Type	Competitive
Detection Range	1.57-100 ug/mL
Sensitivity	0.48 ug/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay)? CV%<8%. Three samples of known concentration were tested twenty times on one plate to assess intra-assay precision.
Inter-assay Precision	Inter-assay Precision (Precision between assays)? CV%<10%. Three samples of known concentration were tested in forty separate assays to assess inter-assay precision.
Preparation and Storage	Store at 2-8 degree C. Stable for 6 months from date of receipt.

ADDITIONAL INFORMATION

Related Product Information for bHB elisa kit	Principle of the Assay: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Beta-Hydroxybutyric Acid(bHB) protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Beta-Hydroxybutyric Acid(bHB). Next,Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Beta-Hydroxybutyric Acid(bHB) in the samples is then determined by comparing the OD of the samples to the standard curve.
Product Categories/Family for bHB elisa kit	Signal transduction; Metabolic pathway; Endocrinology

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
