

## Human RPL13 (Ribosomal Protein L13) ELISA Kit | RPL13 elisa kit

Human RPL13 (Ribosomal Protein L13) ELISA Kit

CATALOG #  
AAA276641

REACTIVITY  
Human

### PRODUCT SYNONYMS

RPL13 (Ribosomal Protein L13); Human RPL13 (Ribosomal Protein L13) ELISA Kit; 60S ribosomal protein L13; BBC1; Breast basic conserved gene 1; Breast basic conserved protein 1; RPL13 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Human                                                                                                                                                                                   |
| Specificity             | This assay has high sensitivity and excellent specificity for detection of Human RPL13. No significant cross-reactivity or interference between Human RPL13 and analogues was observed. |
| Assay Type              | Sandwich                                                                                                                                                                                |
| Detection Range         | 0.16-10 ng/mL                                                                                                                                                                           |
| Sensitivity             | 0.058 ng/mL                                                                                                                                                                             |
| Intra-assay Precision   | Intra-assay Precision (Precision within an assay)? CV%<8%. Three samples of known concentration were tested twenty times on one plate to assess intra-assay precision.                  |
| Inter-assay Precision   | Inter-assay Precision (Precision between assays)? CV%<10%. Three samples of known concentration were tested in forty separate assays to assess inter-assay precision.                   |
| Preparation and Storage | Store at 2-8 degree C. Stable for 6 months from date of receipt.                                                                                                                        |

### ADDITIONAL INFORMATION

#### Related Product Information for RPL13 elisa kit

**Principle of the Assay:** The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Ribosomal Protein L13(RPL13). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Ribosomal Protein L13(RPL13). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Ribosomal Protein L13(RPL13), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm  $\pm$  10nm. The concentration of Ribosomal Protein L13(RPL13) in the samples is then determined by comparing the OD of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
