

Human sIL30 (Soluble Interleukin 30) ELISA Kit | sIL30 elisa kit

Human sIL30 (Soluble Interleukin 30) ELISA Kit

CATALOG #
AAA276982

REACTIVITY
Human

PRODUCT SYNONYMS

sIL30 (Soluble Interleukin 30); Human sIL30 (Soluble Interleukin 30) ELISA Kit; IL-27;p28; IL30; Interleukin 30; Interleukin-27 subunit alpha; sIL30 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This assay has high sensitivity and excellent specificity for detection of Human sIL30. No significant cross-reactivity or interference between Human sIL30 and analogues was observed.
Assay Type	Sandwich
Detection Range	7.82-500 pg/mL
Sensitivity	2.9 pg/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay)? CV%<8%. Three samples of known concentration were tested twenty times on one plate to assess intra-assay precision.
Inter-assay Precision	Inter-assay Precision (Precision between assays)? CV%<10%. Three samples of known concentration were tested in forty separate assays to assess inter-assay precision.

Principle of the Assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Soluble Interleukin 30(sIL30). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Soluble Interleukin 30(sIL30). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Soluble Interleukin 30(sIL30), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Soluble Interleukin 30(sIL30) in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for sIL30 elisa kit

Cytokine; Tumor immunity; Infection immunity

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
