

Human RLN2 (Relaxin 2) ELISA Kit | RLN2 elisa kit

Human RLN2 (Relaxin 2) ELISA Kit

CATALOG #
AAA277007

REACTIVITY
Human

PRODUCT SYNONYMS

RLN2 (Relaxin 2); Human RLN2 (Relaxin 2) ELISA Kit; RLN2; Pror relaxin H2; RLXH2; bA12D24.1.1; bA12D24.1.2; H2; relaxin 2; RLN2 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This assay has high sensitivity and excellent specificity for detection of Human RLN2. No significant cross-reactivity or interference between Human RLN2 and analogues was observed.
Assay Type	Sandwich
Detection Range	31.25-2000 pg/mL
Sensitivity	8.92 pg/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay)? CV%<8%. Three samples of known concentration were tested twenty times on one plate to assess intra-assay precision.
Inter-assay Precision	Inter-assay Precision (Precision between assays)? CV%<10%. Three samples of known concentration were tested in forty separate assays to assess inter-assay precision.

ADDITIONAL INFORMATION

Related Product Information for RLN2 elisa kit

Principle of the Assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Relaxin 2(RLN2). Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Relaxin 2(RLN2). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Relaxin 2(RLN2), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm± 10nm. The concentration of Relaxin 2(RLN2) in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for RLN2 elisa kit

Endocrinology; Reproductive science; Hormone metabolism

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
