

Mouse Cor (Cortisol) ELISA Kit | Cor elisa kit

Mouse Cor (Cortisol) ELISA Kit

CATALOG #
AAA277999

REACTIVITY
Mouse

PRODUCT SYNONYMS

Cor (Cortisol); Mouse Cor (Cortisol) ELISA Kit; Hydrocortisone; Cor elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Assay Type	Competitive Inhibition
Samples	serum, plasma, urine and other biological fluids
Detection Range	3.13-200ng/mL
Sensitivity	0.91ng/mL

ADDITIONAL INFORMATION

Related Product Information for Cor elisa kit

Test Principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Mouse Cor protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse Cor. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm +/- 10nm. The concentration of Mouse Cor in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for Cor elisa kit

Metabolic pathway; Endocrinology; Hormone metabolism

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
