

Human SALb (Salusin Beta) ELISA Kit | SALb elisa kit

Human SALb (Salusin Beta) ELISA Kit

CATALOG #
AAA278166

REACTIVITY
Human

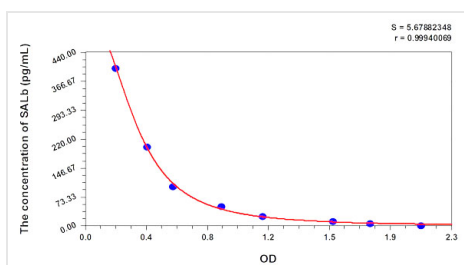

PRODUCT SYNONYMS

SALb (Salusin Beta); Human SALb (Salusin Beta) ELISA Kit; Salusin Beta; SALb elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Assay Type	Competitive Inhibition
Samples	serum, plasma and other biological fluids
Detection Range	0.16-10ng/mL
Sensitivity	0.056ng/mL

ADDITIONAL INFORMATION

Related Product Information for SALb elisa kit

Test Principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Human SALb protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human SALb. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm +/- 10nm. The concentration of Human SALb in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for SALb elisa kit

Metabolic pathway; Endocrinology; Cardiovascular biology; Neuro science; Hormone metabolism

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
