

## Mouse SAA2 (Serum Amyloid A2) ELISA Kit | SAA2 elisa kit

Mouse SAA2 (Serum Amyloid A2) ELISA Kit

CATALOG #  
**AAA278385**

REACTIVITY  
**Mouse**

### PRODUCT SYNONYMS

SAA2 (Serum Amyloid A2); Mouse SAA2 (Serum Amyloid A2) ELISA Kit; SA-A2; SAA2 elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                                                       |
|-----------------|-------------------------------------------------------------------------------------------------------|
| Reactivity      | Mouse                                                                                                 |
| Assay Type      | Sandwich                                                                                              |
| Samples         | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids. |
| Detection Range | 7.81-500ng/mL                                                                                         |
| Sensitivity     | 2.67ng/mL                                                                                             |

### ADDITIONAL INFORMATION

#### Related Product Information for SAA2 elisa kit

**Test Principle:** The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse SAA2. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse SAA2. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse SAA2, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm +/- 10nm. The concentration of Mouse SAA2 in the samples is then determined by comparing the OD of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION

|                  |             |
|------------------|-------------|
| NCBI GI #        | 6755394     |
| NCBI GeneID      | 20209       |
| NCBI Accession # | NP_035444.1 |

|                                  |                           |
|----------------------------------|---------------------------|
| NCBI GenBank Nucleotide #        | NM_011314.2               |
| UniProt Accession #              | P05367                    |
| Molecular Weight                 | 13,622 Da                 |
| NCBI Official Full Name          | serum amyloid A-2 protein |
| NCBI Official Synonym Full Names | serum amyloid A 2         |
| NCBI Official Symbol             | Saa2                      |
| NCBI Official Synonym Symbols    | Saa1; Saa-2; AW111173     |
| NCBI Protein Information         | serum amyloid A-2 protein |
| UniProt Protein Name             | Serum amyloid A-2 protein |
| UniProt Gene Name                | Saa2                      |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
