

Mouse HAase (Hyaluronidase) ELISA Kit | HAase elisa kit

Mouse HAase (Hyaluronidase) ELISA Kit

CATALOG #
AAA278439

REACTIVITY
Mouse

PRODUCT SYNONYMS

HAase (Hyaluronidase); Mouse HAase (Hyaluronidase) ELISA Kit; Hyaluronic Lase; Hyaluronidase; HAase elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Assay Type	Sandwich
Samples	serum, plasma, tissue homogenates and other biological fluids
Detection Range	3.13-200ng/mL
Sensitivity	1.21ng/mL

ADDITIONAL INFORMATION

Related Product Information for HAase elisa kit

Test Principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse HAase. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse HAase. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse HAase, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm +/- 10nm. The concentration of Mouse HAase in the samples is then determined by comparing the OD of the samples to the standard curve.
