

Human F-Testo (Free Testosterone) ELISA Kit | F-Testo elisa kit

Human F-Testo (Free Testosterone) ELISA Kit

CATALOG #
AAA278793

REACTIVITY
Human

PRODUCT SYNONYMS

F-Testo (Free Testosterone); Human F-Testo (Free Testosterone) ELISA Kit; F-TESTO; Free Testosterone; F-Testo elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Assay Type	Competitive Inhibition
Samples	serum, plasma, other biological fluids
Detection Range	31.25-2000pg/mL
Sensitivity	15.75pg/mL

ADDITIONAL INFORMATION

Related Product Information for F-Testo elisa kit

Test Principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Human F-Testo protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human F-Testo. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm +/- 10nm. The concentration of Human F-Testo in the samples is then determined by comparing the OD of the samples to the standard curve.
