

Sortase A (srtA) Recombinant Protein | srtA recombinant protein

Recombinant Staphylococcus aureus Sortase A (srtA), partial

CATALOG #
AAA278930

HOST
E Coli or Yeast or Baculovirus or Mammalian Cell

PRODUCT SYNONYMS

Sortase A (srtA); Recombinant Staphylococcus aureus Sortase A (srtA); partial; Surface protein sorting A; srtA recombinant protein

PRODUCT SPECIFICATIONS

Host	E Coli or Yeast or Baculovirus or Mammalian Cell
Purity/Purification	Greater or equal to 85% purity as determined by SDS-PAGE.
Form/Format	Lyophilized or liquid (Format to be determined during the manufacturing process)
Sequence Positions	25-206aa; Partial
Sequence	AKPHIDNYLH DKDKDEKIEQ YDKNVKEQAS KDKKQQAQPK IPKDKSKVAG YIEIPDADIK EPVYPGPATP EQLNRGVSFA EENESLDDQN ISIAGHTFID RPNYQFTNLK AAKKGSMVYF KVGNETRKYK MTSIRDVKPT DVGVLDEQKG KDKQLTLITC DDYNEKTGVW EKRKIFVATE VK
Species	Staphylococcus aureus (strain 8325)
Reconstitution	We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20 degree C/-80 degree C. Our default final concentration of glycerol is 50%. Customers could use it as reference.
Preparation and Storage	Store at -20 degree C. For extended storage, store at -20 or -80 degree C.

ADDITIONAL INFORMATION

Product Categories/Family for srtA recombinant protein	Microbiology
--	--------------

NCBI AND UNIPROT INFORMATION

UniProt Accession #	Q2FV99
Molecular Weight	24.9kDa

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
