### PRODUCT SYNONYMS

Early E3 18.5 kDa glycoprotein; Polyclonal Antibody; Early E3 18.5 kDa glycoprotein Antibody; Early E3 18.5 kDa glycoprotein (E3-19K) (E3gp 19 kDa) (E19) (GP19K); anti-E19 antibody

### PRODUCT SPECIFICATIONS

|                                               |                                                                                             |
|-----------------------------------------------|---------------------------------------------------------------------------------------------|
| Host                                          | Rabbit                                                                                      |
| Reactivity                                    | Human adenovirus C serotype 5                                                               |
| Clonality                                     | Polyclonal                                                                                  |
| Isotype                                       | IgG                                                                                         |
| Purity/Purification                           | Affinity-chromatography                                                                     |
| Form/Format                                   | Liquid                                                                                      |
| Sequence Positions                            | 18-124                                                                                      |
| Applicable Applications for anti-E19 antibody | WB (Western Blot), ELISA                                                                    |
| Antigen Species                               | Human adenovirus C serotype 5 (HAdV-5) (Human adenovirus 5)                                 |
| Antigen                                       | Recombinant Human adenovirus C serotype 5 Early E3 18.5 kDa glycoprotein protein (18-124aa) |
| Conjugation                                   | Non-conjugate                                                                               |
| Buffer                                        | Preservative: 0.03% Proclin 300<br>Constituents: 50% Glycerol, 0.01M PBS, pH 7.4            |
| Preparation and Storage                       | Upon receipt, store at -20 degree C or -80 degree C. Avoid repeated freeze.                 |
