

IgG (H+L) Secondary Antibody

HRP-Rabbit Anti-Sheep IgG (H+L) Antibody

CATALOG # AAA279613	HOST Rabbit	APPLICATIONS ELISA, Immunohistochemistry, Western Blot
-------------------------------	-----------------------	--

PRODUCT SYNONYMS

IgG (H+L); HRP-Rabbit Anti-Sheep IgG (H+L) Antibody; HRP-Rabbit Anti-Sheep IgG (H+L): N/A; IgG (H+L) secondary antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Isotype	Horseradish peroxidase conjugated IgG
Purity/Purification	Affinity Purification
Form/Format	PBS with 0.75% BSA, 50% glycerol, pH 7.3
Applicable Applications for IgG (H+L) secondary antibody	ELISA, IHC (Immunohistochemistry), WB (Western Blot)
Conjugate	HRP
Immunogen	Sheep IgG
Preparation and Storage	Store at -20°C. Avoid freeze / thaw cycles.

ADDITIONAL INFORMATION

Related Product Information for IgG (H+L) secondary antibody	Secondary antibodies are affinity-purified antibodies which will work with target-specific primary antibody in the detection, sorting or purification of its specified target. Secondary antibodies offer increased versatility enabling users to use many detection systems (e.g. HRP, AP, fluorescence). They can also provide greater sensitivity through signal amplification as multiple secondary antibodies. Most commonly, secondary antibodies are generated by immunizing the host animal (different from host species of primary antibody) with a pooled population of normal immunoglobulins from the host species of primary antibody and can be further purified and modified (i.e. antibody fragmentation, label conjugation, etc.) to ensure well-characterized specificity to corresponding normal immunoglobulins.
Product Categories/Family for IgG (H+L) secondary antibody	Secondary Antibody

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
