

## IgG (H+L) Secondary Antibody

Rhodamine (TRITC) -Goat Anti-Rabbit IgG (H+L) Antibody

| CATALOG # | HOST | REACTIVITY | APPLICATIONS                                                                                    |
|-----------|------|------------|-------------------------------------------------------------------------------------------------|
| AAA279653 | Goat | Rabbit     | Immunofluorescence, Flow Cytometry, Functional Assay, Immunocytochemistry, Immunohistochemistry |

### PRODUCT SYNONYMS

IgG (H+L); Rhodamine (TRITC) -Goat Anti-Rabbit IgG (H+L) Antibody; Rhodamine (TRITC) -Goat Anti-Rabbit IgG (H+L): N/A; IgG (H+L) secondary antibody

### PRODUCT SPECIFICATIONS

|                                                          |                                                                                                           |
|----------------------------------------------------------|-----------------------------------------------------------------------------------------------------------|
| Host                                                     | Goat                                                                                                      |
| Reactivity                                               | Rabbit                                                                                                    |
| Isotype                                                  | TRITC conjugated IgG                                                                                      |
| Purity/Purification                                      | Affinity Purification                                                                                     |
| Form/Format                                              | 50% glycerol, pH 7.3                                                                                      |
| Applicable Applications for IgG (H+L) secondary antibody | IF (Immunofluorescence), FCM/FACS (Flow Cytometry), ICC (Immunocytochemistry), IHC (Immunohistochemistry) |
| Immunogen                                                | Rabbit IgG                                                                                                |
| Preparation and Storage                                  | Store at -20°C. Avoid freeze / thaw cycles.                                                               |

### ADDITIONAL INFORMATION

|                                                            |                    |
|------------------------------------------------------------|--------------------|
| Product Categories/Family for IgG (H+L) secondary antibody | Secondary Antibody |
|------------------------------------------------------------|--------------------|

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
