Application Data

COV119-IgG/IgM products from three different companies (K, LZ and INT company) were tested. All of them showed obvious band when using over 1 ul anti-2019-nCoV N IgM (NM01) (AAA27967). For the INT product, it showed obvious IgM band even at 0.5 ul NM01 (AAA27967). No non-specific IgG band was shown in this test.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
