

Mouse HA-Tag Monoclonal Antibody | anti-HA-Tag antibody

Mouse anti HA-Tag mAb

CATALOG # AAA282146	HOST Mouse	APPLICATIONS Immunoprecipitation, Western Blot
-------------------------------	----------------------	--

PRODUCT SYNONYMS

HA-Tag; Monoclonal Antibody; Mouse anti HA-Tag mAb; HA; HA tag; HA-tag; anti-HA-Tag antibody

PRODUCT SPECIFICATIONS

Host	Mouse
Clonality	Monoclonal
Isotype	IgG
Purity/Purification	Affinity purification
Form/Format	PBS with 0.05% proclin300,50% glycerol,pH7.3.
Sequence	YPVDVDPYA
Applicable Applications for anti-HA-Tag antibody	IP (Immunoprecipitation), WB (Western Blot)
Immunogen	A synthetic peptide corresponding to HA tag.
Positive Samples	293T
Preparation and Storage	Store at -20 degree C. Avoid freeze/thaw cycles.

IMAGES

IP (Immunoprecipitation)

Immunoprecipitation analysis of 200ug extracts of 293T cells using 3ug Mouse anti HA-Tag antibody. Western blot was performed from the immunoprecipitate using Mouse anti HA-Tag antibody at a dilution of 1:1000.

WB (Western Blot)

Western blot analysis of extracts of over-expressed HA-tagged protein in 293T cells, using Mouse anti HA-Tag mAb at 1:100000 dilution. Secondary antibody: HRP Goat Anti-Mouse IgG (H+L) (AS003) at 1:10000 dilution. Lysates/proteins: 25ug per lane. Blocking buffer: 3% nonfat dry milk in TBST. Detection: ECL Basic Kit (RM00020). Exposure time: 1s.

ADDITIONAL INFORMATION

Related Product Information for anti-HA-Tag antibody	Background: Protein tags are peptide sequences genetically grafted onto a recombinant protein. Often these tags are removable by chemical agents or by enzymatic means, such as proteolysis or intein splicing. Tags are attached to proteins for various purposes.Epitope tags are short peptide sequences which are chosen because high-affinity antibodies can be reliably produced in many different species. These are usually derived from viral genes, which explain their high immunoreactivity. Epitope tags include V5-tag, Myc-tag, HA-tag and NE-tag. These tags are particularly useful for western blotting, immunofluorescence and immunoprecipitation experiments, although they also find use in antibody purification.
Product Categories/Family for anti-HA-Tag antibody	Other Antibody Type

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
