

Rabbit anti-Human CLDN2 Polyclonal Antibody | anti-CLDN2 antibody

CLDN2 Antibody (C-term Y195)

CATALOG #	HOST	REACTIVITY	APPLICATIONS
AAA287606	Rabbit	Human	Flow Cytometry, Functional Assay, Immunohistochemistry, ELISA, Western Blot

PRODUCT SYNONYMS

CLDN2; Polyclonal Antibody; CLDN2 Antibody (C-term Y195); Claudin-2; SP82; anti-CLDN2 antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	Human
Clonality	Polyclonal
Isotype	Rabbit Ig
Specificity	This CLDN2 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 174-201 amino acids from the C-terminal region of human CLDN2.
Purity/Purification	Peptide Affinity Purified Rabbit Polyclonal Antibody (Pab)
Form/Format	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.
Concentration	Vial Concentration: 0.3 (varies by lot)
Sequence Positions	174-201
Sequence Length	230
Applicable Applications for anti-CLDN2 antibody	FCM/FACS (Flow Cytometry), IHC (Immunohistochemistry), ELISA, WB (Western Blot)
Antigen Type	Synthetic Peptide
Antigen Source	HUMAN
Preparation and Storage	Maintain refrigerated at 2-8 degree C for up to 6 months. For long term storage store at -20 degree C in small aliquots to prevent freeze-thaw cycles.

FCM/FACS (Flow Cytometry)
CLDN2 Antibody (C-term Y195) flow cytometric analysis of 293 cells (right histogram) compared to a negative control cell (left histogram).FITC-conjugated goat-anti-rabbit secondary antibodies were used for the analysis.

IHC (Immunohiostchemistry)
CLDN2 Antibody (C-term Y195) immunohistochemistry analysis in formalin fixed and paraffin embedded human stomach tissue followed by peroxidase conjugation of the secondary antibody and DAB staining.This data demonstrates the use of CLDN2 Antibody (C-term Y195) for immunohistochemistry. Clinical relevance has not been evaluated.

WB (Western Blot)
Western blot analysis of CLDN2 (arrow) using rabbit polyclonal CLDN2 Antibody (Y195). 293 cell lysates (2 ug/lane) either nontransfected (Lane 1) or transiently transfected (Lane 2) with the CLDN2 gene.

ADDITIONAL INFORMATION

Related Product Information for anti-CLDN2 antibody	This gene product belongs to the claudin protein family whose members have been identified as major integral membrane proteins localized exclusively at tight junctions. Claudins are expressed in an organ-specific manner and regulate tissue-specific physiologic properties of tight junctions. This protein is expressed in the intestine. Alternatively spliced transcript variants with different 5' untranslated region have been found for this gene.
